FIKSNE PERGOLE

FIXED PERGOLAS

ALUMINIJSKE PERGOLE: ESTETIKA, PRILAGODLJIVOST I DUGOTRAJNOST

Sistem Pergola prvenstveno se koristi kao zaštita od sunca na otvorenim površinama. Pergole iz našeg asortimana odlikuju se kvalitetom, funkcionalnošću i estetikom.

Mogu poslužiti kao nastavak kuće ili kao samostalna struktura s nekim specifičnim namjenama.

Budući da je aluminij vrlo otporan materijal pergole će i nakon dužeg vremena i dalje izgledati odlično i unijet će više životnog prostora u samo dvorište.

Modularni koncept nudi različita tehnološka rješenja kao što su nevidljivi spojevi, utor za LED rasvjetu itd. Čvrsta konstrukcija omogućuje visoku otpornost na vjetar i maksimalne dimenzije do 6x6x3m.

Izrađena od laganih i jednostavnih profila, omogućuje različite izvedbene tipologije. Također je omogućena ugradnja različitih sjenila kao i kliznih stijena tipa FEAL FR-18.

ALUMINIUM PERGOLAS: AESTHETICS, ADAPTABILITY AND DURABILITY

The Pergola system is primarily used as protection from the sun on open areas. Pergolas from our range are characterized by quality, functionality and aesthetics.

They can serve as an extension of the house or as an independent structure with some specific purposes.

Since aluminium is a very resistant material, the pergola will still look great even after a long time and will bring more living space to the yard itself.

The modular concept offers various technological solutions such as invisible joints, a slot for LED lighting, etc. The solid construction enables high wind resistance and maximum dimensions of up to 6x6x3m.

Made of light and simple profiles, it enables different performance typologies. It is also possible to install different shades as well as FEAL FR-18 type sliding walls.

FIKSNE PERGOLE

FIXED PERGOLAS

KARAKTERISTIKE SISTEMA:

Dubina okvira: 220 mm

Dubina ispune: do 200 mm

Osnovni materijal: EN AW-6060

Površinska obrada: DIN 17611

Kontrola kvalitete: DIN EN ISO 9001

SYSTEM CHARACTERISTICS:

Frame depth: 220 mm

Filling depth: up to 200 mm

Basic material: EN AW-6060

Surface treatment: DIN 17611

Quality control: DIN EN ISO 9001

UTOR ZA LED RASVJETU / LED LIGHTING SLOT

FEAL pergole dolaze s utorom za ugradnju LED traka. Iako pergole same po sebi donose dinamičan i moderan ugođaj u vaše dvorište, mnogo su impresivnije kada ih prati ambijentalna LED rasvjeta.

FEAL pergolas come with a slot for installing LED strips. Although pergolas by themselves bring a dynamic and modern atmosphere to your yard, they are much more impressive when accompanied by ambient LED lighting.

RAZLIČITI KUTOVI LAMELA

VARIOUS LOUVER ANGLES

Mogućnost montaže lamela pod kutovima od 0°, 15°, 30°, 45°

The possibility of installing louvers at angles of 0°, 15°, 30°, 45°

MOGUĆNOST UGRADNJE RAZLIČITIH SJENILA I KLIZNIH STAKLENIH STIJENKI KAO ŠTO JE FEAL FR 18

POSSIBILITY OF INSTALLATION OF DIFFERENT SHADES AND SLIDING GLASS WALLS SUCH AS FEAL FR 18

Dodajte još jednu dimenziju pergolama ugradnjom kliznih staklenih stijenki i tako se zaštitite od vjetra i insekata bez zaklanjanja pogleda na vaš vrt ili dvorište.

Add another dimension to pergolas by installing sliding glass walls and thus protect yourself from wind and insects without obscuring the view of your garden or yard.
